## Regional partnerships

Please select the different regions with which you intend to work.

Include a list of regions and upon selection of a region, a sub-section should be added.

- You will be asked to provide the list of higher education institutions with which you would like to cooperate. This information is mandatory at this stage. However, it will be possible to work with other partners than those in your application as long as they are in the same countries. Information about other organisations than higher education institutions that may participate in your project (as hosts for traineeships or in the frame of staff mobility) is not mandatory but can be helpful to provide a better overview of your project.
- You will then be asked to enter the different outgoing and incoming mobility activities for the region. You will also have to insert the indicative number of mobilities you intend to organise with the countries belonging to the given region.
- You will have to answer two open questions to demonstrate the relevance and the potential impact and dissemination of the project in this specific region. Your answer to each question should refer to your higher education institution and your partners in that region.

According to the [Programme Guide](#) please note that some study cycles (short-, first and second) are restricted for outgoing students towards countries that receive official development assistance. PhD students and staff are eligible for outgoing mobility. The list of the countries with restrictions can be found [here](#) (the Western Balkan countries are exempted from the restriction and can allow all flows and study cycles).

Be aware that the provided answers for each region will be assessed separately.

| Region | Number of organisation | List of selected countries | Total grant (EUR) |
|--------|------------------------|----------------------------|-------------------|
| 1      |                        |                            | 0,00              |

Provide a list of the higher education institutions from the Third countries not associated to the Programme in the region indicating their corresponding Organisation ID. To look for the Organisation ID of registered organisations please visit the [Organisation Registration system for Erasmus+ and European Solidarity Corps](#).

If you apply for student mobility for traineeships and this information is already available at the time of application, please provide a list of the receiving organisations in the Third countries not associated to the Programme for outgoing mobilities, indicating their corresponding Organisation ID. You may provide here available information for staff mobility involving non-academic organisations. If you plan to work with non-academic partners that do not have an OID, you don't need to include them in the application. If you apply for activities involving non-academic organisations and this information is already available at the time of application, please provide a list of the receiving organisations in the third countries not associated to the Programme, indicating their corresponding Organisation ID. If you plan to work with non-academic partners that do not have an OID, you don't need to include them in the application.

## Project description

### Quality of project design and cooperation arrangements

We would like you to present the cooperation arrangements that will be put in place for all the activities of the project:

- Describe how the responsibilities, roles and tasks will be divided between you and your partners as receiving/sending institutions throughout the project and how it will be defined in the Inter-institutional Agreements.
- Refer to the arrangements and measures that you foresee for the different phases of the mobility project, including:
  - selection of participants,
  - the support provided to participants before, during and after the mobility period,
  - measures to ensure full recognition for all participants (students and staff), by your institution and your partners,
  - and procedures for debriefing participants after mobility.
- When you refer to outreach and selection strategies, please highlight specific measures to ensure participation of those with fewer opportunities (in accordance with the [Inclusion and Diversity Strategy](#)).
- Describe how the proposal respects and promotes shared EU values.

## Activities

While introducing your activities and flows for each of your Third countries not associated to the Programme, the required EU grant to perform these activities will be automatically calculated. Please be aware that:

- you will be required to introduce an activity as Learner or Staff Mobility at this stage. Later during implementation, you will be able to specify the activity category (studies/ traineeship/ teaching/ training).
- for learner mobility, the related EU grant will be calculated on the basis of the total duration indicated in each flow taking the monthly rate for learners' long-term mobility (2-12 months). Applicants planning to perform short-term student mobilities should reflect the costs for these mobilities inserting the equivalent in monthly rates.
